Upgrade Procedure:

1. Upgrade Software
   a. Assign a 192.168.2.x/24 static IP address on your computer. Where x is a number in the range of 3-100.
   b. Open a web browser, connect to 192.168.2.2, and login with username **admin** and password **1234**.
   c. Click on **Advanced→Update Firmware**: Software Upgrade. Click on "Browse" button
   d. Locate and double click on the appropriate Comtrend software image
   e. Click on "Update" button. You will be informed that the product will become unresponsive and to not turn off or unplug the product, click "OK". New window will pop-up showing the progress of

uploading the software. Upon completion, the GUI page will be redirected to the log-in page.

2. Verify
   a. Log-in to the GUI.
   b. Information section of the GUI shows the "Firmware version". Verify that the latest code reflects: 1.2.0
