The Next Generation of Parental Controls

On-the-go Mobile Protection

Unlike other solutions, Bark's protection extends outside of the home with its mobile app protection.

Social Media Monitoring

Parents do not have to keep up with latest trends of social media, because Bark covers 30+ of the most popular social apps.

Text / Email Monitoring

Bark has the most coverage of any monitoring tool (Email, text, audio, video, and images, and more).

24/7 A.I. Detection

Bark doesn't only block activities, it utilizes powerful A.I. to protect your children around the clock.

Parental Alerts

If Bark detects a potential dangerous situation or problem, it will send an alert notification to the parent.

Psychologist Recommendations

Bark offers psychologist recommendations and resources for how to talk to you children and teens.

Delivering Bark is Easy

Simple Firmware Update

OR

Connect via Ethernet Cable to the Network

Bark-Enabled Comtrend Gateway

Bark Home Device for Mixed-CPE Environments

Simply Download the Bark App

Cellular/Mobile Phones

- Use the Bark App as a **stand-alone**, digital-only option or **along with a Gateway for added protection.**

- A digital-only option requires **zero truck-rolls** or cost and can be **deployed immediately!**
